Standard Reports Catalog

1. Introduction

PeoplesHR is a leading Human Capital Management (HCM) software solution that digitalises the entire employee lifecycle, from recruitment to retirement. It enables organisations to streamline and automate HR processes, enhance employee experiences, and leverage actionable insights to support informed decision-making.

1.1 Purpose

This Catalog describes the standard reports available across the HCM modules. For every report it states what the report shows, the business question it answers, when to use it, who normally uses it and how often. It is intended to help users find the right report quickly without needing a detailed specification.

1.2 Scope

The Catalog contains 109 standard reports across 13 module groups: Employee Information Manager, Absence Management, Time & Attendance, Employee Life Cycle, Recruitment, Payroll, Payroll (Sri Lanka statutory), Loan Management, Performance Management, Training & Development, Manpower Planning, Disciplinary Management and System Administration. The five standard letter templates are described in Section 6. Reports planned for future releases are listed separately in Section 7.

1.3 Who this is for

User group	How the Catalog helps
HR professionals	Find reports for probation, movements, separations, recruitment and employee records.
Line managers	Find team-level views of attendance, leave, overtime and performance.
Payroll teams	Find pre-payroll checks, reconciliations, bank and cash lists, tax and statutory reports.
System administrators	Find workflow monitoring reports and the reports used for data correction.
HR leadership and management	Find workforce composition, planning, movement and performance summaries.
Finance and compliance	Find payroll summaries, loan reconciliation, training cost and gratuity reports.

2. How to Use This Catalog
